Does Size Really Matter

Only you can provide the answer to this question!

If you have ever felt nervous and insecure at the start of a new sexual encounter or embarrassed and ashamed showering with the guys at the gym then the last thing you need to hear is that the size of your Penis doesn't matter!

Like it or not, the size of your penis is determined by genes inherited by your parents and thankfully with Enlargement products available today this doesn't mean you can't do something about it! Studies have found that the average size of an erect penis is between 5.9 and 6.5 inches with the average girth at 4.8 inches. If your penis size falls somewhere in this range it may be of some comfort to know that you have an 'average' penis size! For those of you who don't quite measure up and for the men who would like to be BETTER and BIGGER than average we have compiled a list of the most effective and safest Penis Enlargement Programs on the market today!

We've all don't that quick glancing and comparing while in the locker room, don't deny it! Let's face it, we are all curious to see how we measure up to others. Well here are some penis facts to give you an idea of where you stand.

When erect, the average man's penis is only 5.6 - 6 inches in length

Most men, approximately 90% are of average penis size.

The average man will lose half an inch of penis length by the age of 50.

Over 95% of men have a smaller and under developed penis than what is possible for them.

Most women need only the first few inches of the penis for satisfaction.

Are You Attached To Your Penis in more ways than one?

It's a well known fact that men are both physically and emotionally attached to their Penis!

Men who feel that they are less than adequate when it comes to Penis size suffer from a lack of confidence and low self esteem, doesn't do much for your performance in the bedroom does it? Most women will admit to 'Faking it' on more than one occasion all in the name of protecting the precious male ego! Thanks Ladies!

Results obtained from studies involving women who have had several male partners proved conclusively that SIZE DOES MATTER! When women were asked if they were happy with the size of their partner's

Penis most claimed they were however when asked if they would prefer even a small increase in Penis size well, you can pretty much bet on the answers we received! The TRUTH is that women find the sexual experience more pleasurable and are more likely to achieve orgasm when they can feel the 'FULLNESS' of the Penis!

What Do Women Think?

Whether or not women feel that size matters is not really the issue as confidence in your sexual performance is probably the most important factor in the bedroom! If you will feel more powerful and confident with a larger penis then that's what really matters, isn't it? If you are really serious about taking the next step towards a heightened more satisfying sexual experience then get the all the facts on Male Enhancement Products and decide for yourself on the Penis Enlargement method that's right for YOU!

Is Penis Enlargement Possible?

This eBook will help you make an informed decision about what penis enlargement program is right for you. We will give you facts about the most popular and best products around based on customer satisfaction and results.

Rest assured that the information that you find on this eBook is real and unbiased but most of all the products are 100% safe as listed by the staff and doctors of "Penis-Enlargement-123.com"

We list and rank the most popular Penis Enlargement Patch, Penis Enlargement Pill and Penis Enlargement Extender programs on the net all right here and all in one convenient eBook. But, we not only list the best penis enlargement programs, we list the only penis enlargement programs that work time and time again - 100% Guaranteed!

You will not find a better eBook anywhere on the net that shows you how to get 100% guaranteed penis enlargement from the best companies around....Period!

The best part about this penis enlargement information guide is that the information in it is 100% Free!

Learn the truth about the many different penis enlargement programs and penis enlargement products available on the net now. Please feel free to review our site as we have the most information available anywhere on the Internet regarding your penile health. Get it all at Penis-Enlargement-123.com. If you have any questions or comments about any penis enlargement program or system that has or has not been reviewed by us then just email us and we can review it for you.

Which Enlargement Program is the Right Program?

This is the only eBook that is backed 100% by a real doctor. Unlike the other review sites that can be found on the net, we do not our own any products and rank them as #1 because we

believe in giving a 100% unbiased view on this sensitive and important issue of penis enlargement.

Let's face it; there are way too many penis enlargement programs and systems available on the net. We have reviewed them all and found most to be quite useless while others were just the same product with a different label. Educating people about all of the types of penis enlargement and male sexual enhancement on the net is the sole purpose of this eBook. The staff of Penis-Enlargement-123.com strives to be the #1 source for all of your penis enlargement and male enhancement needs. To View the list of the top rated penis Enlargement products then [click here](#).

If you have ever had any questions or concerns regarding penis size and penis enlargement, then you have come to the right place. If you have found a product on the net that you are not sure about then just ask us and we can review it for you for free, that is a guarantee!

The best way for us to give the proper and most relevant advice to our clients and readers is to answer the most common questions about male enhancement that you have and list them below.

The Basics of Penis Enlargement

Penis Enlargement is not a new idea because it has been around for centuries. However it is only in recent years that the methods have become more refined enough that manufacturers can finally guarantee their success and put the skepticism to rest.

How exactly do all of these products work? What internal parts of the penis do these herbal products target? The answer can be found on the next page of this eBook.

Gone are the days of the dangerous penis pumps and the extremely expensive penile enlargement surgery. The newest method of enlargement was formed when the Chinese herbal ingredients from the east met with modern western medical devices. These two were combined into one complete system which has proven to give excellent results called the "Extender Systems". The other more well known types of enlargement are "patches, pills, and exercises". These herbal supplements work very well and are very easy on your budget.

Penis Pills and Penis Patches when used in conjunction with exercise programs have been very beneficial in adding length to the penis. So if you do buy penis pills or patches then make sure you buy a system that includes either exercise guides or exercise eBooks. Combining these two methods is the best way for you to get the results that you deserve.

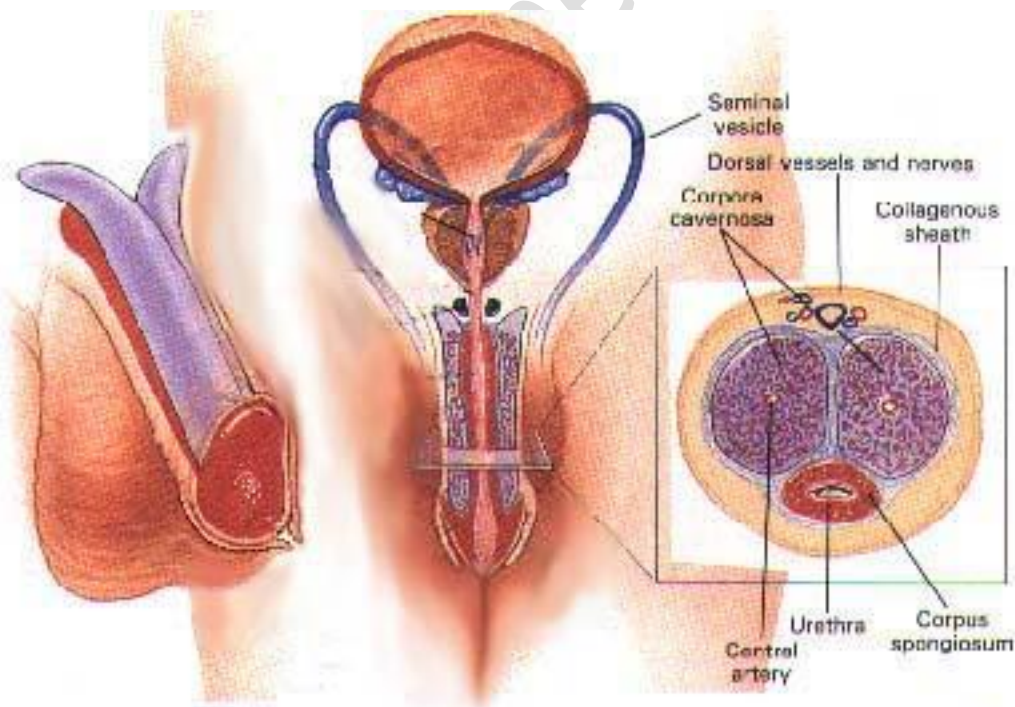

All of the products listed in this eBook are backed by real doctors and come with real 100%

money back guarantees no matter which method and product you decide to purchase.

Learn How Penis Enlargement Works

The penis consists of three chambers, two of them are called the Corpora Caverosa as shown on the diagram, and the third is the Corpus Spongiosum. The Corpus Spongiosum is primarily used for urinating and ejaculation. When a person gets sexually excited the brain releases a hormone which sends blood to your penis, filling the tissue within the Corpora Caverosa to its maximum level.

The maximum your erectile tissue can fill with blood creates the size your erect penis presently is. Therefore your penis is in fact allot smaller than it could be if the erectile tissue chambers were larger i.e. holding more blood. Penis enlargement pills and patches work by increasing the size of these chambers both in length and width enabling them to hold more blood. This leads to the increased inches in length. Additionally Penis Enlargement extenders allow the stretching of the fibrous sheets (fascia) surrounding the chambers which allows for greater blood flow.

Top 5 Frequently Asked Questions

We Answer The Top 5 Most Common Questions.

Question #1- Why do so many sites claim to list the best products on the market?

Answer- These so-called review sites rank their products based solely on how much commission the manufacturer of that product pays them. Let's face it, it costs thousands of dollars a day to be on the top of Google, Yahoo or MSN just to name a few, and these sites need to recoup that advertising dollar and turn a profit. Unfortunately, you the consumer pay the price by getting unreliable and 100% biased information and in most cases even a product that does not work. Our Products are ranked and listed based on customer satisfaction - not affiliate commissions.

Question #2- Who Do I Trust to Give me the Results I am looking for?

Answer- You can never be sure who is telling the truth and who is lying to you on the internet. There are way too many fake review sites to keep track of these days, but as we said before rest assured this eBook is the only place that DOES NOT RANK products based on affiliate commissions. In fact some of the products that we list do not even have affiliate programs! We are simply an advertiser of the products that sell themselves based on customer feedback, customer results, and customer satisfaction. Remember that all of the products listed offer 100% Money Back Satisfaction Guarantees.

Question #3- Which Method is the Best Method? Patches, Pills, Exercises or Extenders?

Answer- We have found that the best possible method available for effective penis enlargement, if your pocket book permits, is a combination of any of the 4 methods above. In other words a complete system that includes the extender, exercise manual, combined with either pills or patches for those discreet times when the extender itself is not an option. If your pocket book is a deciding factor then the second best method we recommend is just using the penis pills or patches combined with an exercise manual. Combining pills or patches with the exercises is key to achieving the goals that you deserve at minimal cost.

Question #4- What Makes Penis-Enlargement-123.com different from the others?

Answer- We are a proud member of the Men's Health Network. Only the most honest and reliable websites on the internet get this seal of approval. We are not in this business to give

false information and biased reviews on products that do not work. Our Sole purpose on the internet is to protect you the consumer from all of the other fake reviews sites and products on the internet.

Question #5- How Do I get Started?

Answer- Choose any one of the products listed in this eBook and you are ready to get started. You will receive a 100% money back Guarantee with each purchase so you can choose any product or system in this eBook without any risk. Keep in mind that the products listed have met all safety standards and are backed by real doctors and herbologists.

Do Penis Enlargement Pills Really Work?

The answer is YES! The idea of using herbs to treat various ailments is not a new one. In fact, tonics and herbs have been used for hundreds of years to treat everything from infection, depression and more recently have been recognized as an invaluable tool in boosting sexual performance.

Many factors are involved in the **sexual well being of men**. Hormonal changes such as the natural drop in testosterone that men experience with age greatly affect sexual drive, stamina and even penis size. Chemical imbalances in the brain that play a big part in depression can also lead to sexual dysfunction. Other contributing factors are poor diet, lack of exercise and drug or alcohol abuse.

Herbs used for **penis enlargement** are specifically chosen to target certain systems throughout the body. These herbs have been proven to regulate hormonal imbalances, increase blood circulation, boost energy levels and improve overall well being. When all these factors fall into place the body will function at its peak greatly affecting sexual performance and enjoyment!

How Do Penis Enlargement Pills Work?

The **eastern approach** is to strengthen the immune system which will correct imbalances in the kidneys (imbalances which divert blood flow). The penis size can be increased through herbal remedies that improve the flow of blood directly to your penis. The penis consists of three chambers, two of them are called the **Corpora Cavernosa**, and the third is the Corpus Spongiosum. The Corpus Spongiosum is primarily used for urinating and ejaculation.

When a person gets excited sexually the brain releases a hormone, which sends blood to your penis, filling the tissue within the Corpora Cavernosa to its maximum level. The maximum your erectile tissue can fill with blood creates the size your erect penis presently is. Therefore, your

penis is in fact a lot smaller than it could be if the erectile tissue chambers were larger i.e. holding more blood. **Penis pills** work by increasing the size of these chambers for both the length and width enabling them to hold more blood. This leads to the increased inches in length.

Additionally penis pills allow the stretching of the fibrous sheets (fascia) surrounding the chambers which allows for greater blood flow. These **Chinese Herbs will increase the capacity** limit of the Corpora Cavernosa thus allowing more blood to enter the cavern creating a longer and thicker erection.

Additional Benefits Of Penis Enlargement Pills:

Due to the demanding world we live in, adrenal function is often left overworked and exhausted causing the body to function poorly. This can occur at any age and presents men with feelings of lethargy and inadequacy. Under these conditions, men will often seek external boosters (such as alcohol, drugs, food, coffee etc) to pump up their energy levels. The eastern approach is to strengthen the immune system which will correct imbalances in the kidneys (imbalances which divert blood flow).

The herbal companies choose their ingredients based on a demonstrated history of *PROVIDING USERS WITH RESULTS*. The ingredients have each been successfully used to treat various ailments, from impotency to low testosterone. Using principles of Chinese Herbal Medicine and modern science, creating a powerful combination that yields impressive results is possible.

- Increase your sex drive
- Make your erection harder
- Make lovemaking more pleasurable and satisfying
- Intensify your orgasm
- Begin working within a few days
- Increase your sense of confidence
- Safely and permanently increase you penis size

GENERAL GUIDE: (the following are the claims made by most penis pill companies)

Week 1-3

There will be noticeable increases in the hardness of your erections as well as increases in sensitivity. Growth in the thickness of your penis will become visible.

Week 4-8

The growth in the length of your penis will now be clearly visible. The thickness of your penis will have increased substantially. You will now see that your penis has taken a new size.

Week 9+

Your penis will now have grown to a completely new size. It will be longer, thicker and will look much healthier. The increases in pleasure felt by both yourself and your lover will be clearly felt.

Penis Enlargement Pill - FAQ's

Are there any other noticeable effects?

In addition to the length increases confirmed above you will notice increases in girth, which were comparable as a %. Other noticeable effects include increases in sex drive combined with harder and longer lasting erections.

How do penis pills work?

Penis pills enlarge the chambers within your penis by enabling them to hold more blood and stretching the surrounding fibrous sheets.

How long does it take to see results?

Although you will start noticing the effects within days you should allow 14 to 21 days for initial results.

Are penis pills safe? Are there any side effects?

Penis pills are completely safe with zero side effects. However sensitivity will be increased which will make love making more enjoyable.

What if I am not satisfied with the results?

In most cases you can simply return the bottle within sixty days for a full refund.

Researchers say that the best way to improve the size and performance of the penis is to maintain a healthy diet and watch what is taken into the body. One of the worst things men can do is smoke. Smoking can actually shrink the penis and its effects on health in general are well documented. Excess intake of alcohol can also have a detrimental effect.

ATTENTION: It has been reported that pills, patches & enlargement exercises used TOGETHER can increase the overall results of your penis size.

Do Penis Enlargement Patches Really Work?

The answer in short is YES! The idea of using herbs to treat various ailments is not a new one. In fact, tonics and herbs have been used for hundreds of years to treat everything from infection, depression and more recently have been recognized as an invaluable tool in boosting sexual performance.

Many factors are involved in the sexual well being of men. Hormonal changes such as the natural drop in testosterone that men experience with age greatly affect sexual drive, stamina and even penis size. Chemical imbalances in the brain that play a big part in depression can also lead to sexual dysfunction. Other contributing factors are poor diet, lack of exercise and drug or alcohol abuse.

Herbs used for penis enlargement are specifically chosen to target certain systems throughout the body. These herbs have been proven to regulate hormonal imbalances, increase blood circulation, boost energy levels and improve overall well being. When all these factors fall into place the body will function at its peak greatly affecting sexual performance and enjoyment!

How Do Penis Enlargement Patches Work?

The Penis Enlargement Patches use a concentrated herbal formula infused into a small, dermal patch which sticks to the body. The penis patch system uses advanced technology to feed the formula into the user's bloodstream in a timely manner just as a diet patch of Nicotine patch would.

The patch's potent blend of ingredients is instantly absorbed to the dermal layer of the skin. The advantage of this is that the product doesn't need to travel through your digestive system to be infused into your system- it is directly merges with your bloodstream and begins working immediately. By combining the proven results of penis patches with years of research into general Penis Enhancement methods, Scientists and doctors have created the ultimate Penis Enhancement herbal formula. The doctors are proud to offer you a patch that works not only to increase penis size in length and girth but also a patch that boosts sexual drive and energy.

Additional Benefits of Penis Patches:

There are no daily pills with the Penis Patch. Simply put, the patches are the safest most effective Discreet Penis Enhancement program available.

The Penis Patches are a Doctor designed and approved herbal supplement with no known side effects. Users have found them to provide fast and real results from just a few short weeks of use. Simply applying one patch every 3 days it will increase the frequency of your erections,

increase the hardness of your erections, and most importantly, increase the SIZE of your erections.

The Penis Patches listed on page 15 are medically tested and proven thousands of times over. An important point is that the products use Chinese herbal medicine as opposed to other more dangerous modern approaches. The natural formulas vitalize the sponge-like tissue of the corpora cavernosa in the penis to allow your penis to be engorged with blood resulting in growth in both length and girth. This formula is the safest and most effective method of enlargement available! This is without a doubt, the BEST Penis Enhancement method on the market. Due to the demanding world we live in, adrenal function is often left overworked and exhausted causing the body to function poorly. This can occur at any age and presents men with feelings of lethargy and inadequacy. Under these conditions, men will often seek external boosters (such as alcohol, drugs, food, coffee etc) to pump up their energy levels. The eastern approach is to strengthen the immune system which will correct imbalances in the kidneys (imbalances which divert blood flow).

Do Penis Enlargement Extenders Really Work?

The answer in short is YES! The latest penis enlargement programs contain very effective devices called Extenders. When used as directed, the male enhancement extender devices are the best method to use if you wish to enhance your penis size permanently.

How Do Penis Enlargement Extenders Work?

A penis extender device employs the same principle of traction used in orthopedic surgeries. This principle states that when human tissue is exposed to a traction force, it reacts by increasing its size.

In the case of the penis traction device, a constant traction force is applied along the length of the penis triggering the growth function of the penis. This increase in the length and girth of the adult penis is said to be permanent.

With so many brands on the market today, it can be a daunting task choosing the right one. But don't worry because our readers have done all the hard work and picked the 3 best systems on the market based on results, not marketing hype. You can view them on the next page or visit the website by [clicking here](#).

Penis Enlargement Extender - FAQ's

Are there any other noticeable effects?

In addition to the length increases confirmed above you will notice increases in girth, which were comparable as a %. Other noticeable effects include increases in sex drive combined with harder and longer lasting erections when either of the pills or patches is used with any extender system.

How long does it take to see results?

Although you will start noticing the effects within days you should allow 14 to 21 days for initial results.

Are penis extenders safe? Are there any side effects?

Penis extenders are completely safe with zero side effects when use as directed.

What if I am not satisfied with the results?

In most cases you can simply return the product within sixty days for a full refund.

Researchers say that the best way to improve the size and performance of the penis is to maintain a healthy diet and watch what is taken into the body. One of the worst things men can do is smoke. Smoking can actually shrink the penis and its effects on health in general are well documented. Excess intake of alcohol can also have a detrimental effect.

Penis Enlargement Exercises

Do Penis Enlargement Exercises Really Work?

Yes they do! Penis enlargement exercises are a popular option with many men who lack the time, the money or the inclination to try other male enhancement approaches. It is well known that some men view traction devices with distrust, while others are leery of pills. One really can't blame others for refusing to swallow the first penis enlargement pills they come across on the specialized market. It's only natural to be cautious when deciding whether to try something new or not, especially when dealing with products whose effectiveness is many times in doubt. Still, penis enlargement exercises are the best option for both the cautious user and the beginner. You can never know exactly how pills are interfering with your system, but exercises are quite something else. The path from a small or average penis to a bigger and meatier one that dangles proudly between your legs is much simpler when every exercise is explained to you in advance. Not to mention that you are in full charge at all times, since you decide how long the exercise would take and can put an end to it anytime you like.

How Do Penis Enlargement Exercises Work?

Beginners who are not sure what penis enlargement is and does can learn the basic principles a lot quicker with the help of this natural male enhancement approach. The exercises help to acquaint the user with the function of blood-flow, how to measure the penis size, how to help the tissues grow and the only fully natural way of getting a larger penis. Penis exercises, like the amazing programs above, are really the best way of becoming acquainted with the concepts and aims of the male enhancement trend.

Penis enlargement exercises cost less than pills, devices or surgery, are the safest option available and have the same ultimate purpose as all the other methods: turning your small penis into a bigger penis and your weak erections into rock-hard erections nearly on demand. Try any of these exercises today and you'll be surprised at how easy and effective this program of exercises can be. Really, it's as close to a win-win situation as you can get.* Please note that the top penis exercise eBook is offered free if you purchase the corresponding company's top listed pill, patch or extender system found in the pill , patch or extender section in this eBook.

Additional Benefits:

1. Permanent penis enlargement. The exceptional penis enlargement exercise programs listed on [our site](#) will start to give you an increase within 2 weeks with as little as 6 minutes a day of exercising. The original set of exercises which the full time research teams have just added are working wonders with their members. You cannot find these exercises on any site. When you achieve your desired size you can just end using the unique program.

2. Control ejaculations & develop your sex life

You'll know how to improve superior control over your ejaculation. This means that you will only ejaculate whenever you want to. You can make your partner happy over and over again before you ejaculate. Your larger penis, sexual stamina and rock hard erections will result in greater sex.

3. Develop confidence & self-esteem:

Having a small penis makes you feel lesser and uncomfortable. Your confidence with women and sex will be low. It has been proven that sexiness comes from confidence. Having a larger, fuller and more muscular penis will give you that confidence.

4. Prostate health & impotence:

One of the causes of impotence is having an unhealthy and weak penis with poor circulation. They will teach you how to improve your penis so that in future years you are still having an active sex life while other inferior people are working very hard to get an erection. With the program you will achieve rock hard erections.

5. Produce 3 times more semen:

Their unique techniques really do gain the amount of semen that you produce. No longer will you feel embarrassed, for it will flow all over your girlfriend drowning her in your semen. This is all possible.

6. Double your sex drive & stamina:

The exceptional guide doubles your sexual desire and stamina. 100% of the people questioned reported the gain of the amount of times they wanted sex, probably because of the developed confidence from having a bigger more able penis. 100% of people also said they could control their ability to ejaculate whenever they wanted, leading to enhanced sexual stamina, meaning they could have sex until their partner was completely satisfied.

7. Increased penis head size:

After a long trial testing period, their research teams have determined a set of exercises to increase the size of your penis head. That resulted from amazing mushroom shape and increased its sensitivity.

8. Straightening of the penis:

If you have a curved penis, it can be very uncomfortable for yourself and your partner. The programs above can help you straighten the penis and improve it to look just the way you want. You will also see the following changes on successful completion of the program:

- Harder erections every time you have sex.
- Ability to get an erection every time you want to
- Make her wheeze when she sees your penis for the first time
- Take pleasure in the ability to give her and yourself multiple orgasms
- Your new penis will finally achieve the elusive "G-Spot"

Penis Enlargement Exercise - FAQ's

Do penis exercises really work?

Yes they do! It's THE common sense approach to penis enlargement. Additionally, these exercises thicken the girth of your penis, improve sexual stamina, and promote greater amounts of ejaculate. As a result, your sex drive will dramatically increase. One of the best benefits of these programs is that your confidence increases. You will feel better about your body and your ability to satisfy your lover as a man.

How long does it take to see results?

No matter what size your penis is when you begin, you can see your penis size increase from 1 to 3 inches. In a short period of time, you'll see amazing results. Your penis will be much thicker, larger, and healthier. Blood circulation improves, allowing for greater sensitivity and pleasure. Your erection will become much harder and last longer than normal.

Are penis exercises safe?

Absolutely, without a doubt, exercises are the safest, most revolutionary way of enlarging your penis. There are no vacuum pumps, heavy weights, or dangerous surgeries that are required. The only tool you'll need is your hands.

What if I am not satisfied with the results?

In most cases you can simply return the DVD or EBook and cancel your membership for a full refund. Researchers say that the best way to improve the size and performance of the penis is to maintain a healthy diet and watch what is taken into the body. One of the worst things men can do is smoke. Smoking can actually shrink the penis and its effects on health in general are well documented. Excess intake of alcohol can also have a detrimental effect.

Attention: Why pay \$50 or more for access to an exercise membership website when you can get the Penis Exercises included for free in eBooks form when purchasing one of the top listed pill, patch or extender systems found in the pill, patch or extender section in this eBook. If you have already purchased an extender or herbal supplements and it did not come with an eBook then please review the products found on our site and choose the one that is right for you.

Penis Enlargement Surgery

What are the Risks?

I would only recommend talking to your doctor about penile implants or surgery strictly as a last resort, and I really stress the "only as a last resort" part. However for those interested, we have posted some information about Penis Surgery Information below.

Penis Augmentation

In the lengthening procedure, the doctor releases the suspensory ligaments that attach the penis to the under surface of the pubic bone allowing access to the section of the penis hidden behind the skin wall. There is actually about an inch of the corpora (the three tubes that make up the inside of the penis) in the body, he is then able to lengthen the penis in proportion to the length of the internal portion. The penis is therefore, not actually lengthened but merely pulled further out of the body and the increase in length varies depending on the patient's anatomy. Results generally range from 1-1/2" to 2" and there is no way to predict the length gain prior to surgery.

There is a drawback with this type of surgery however, five percent of men do not experience any increase in either flaccid or erect penis length following surgery. In a small amount of cases, penis length is actually reduced due to the formation of scar tissue that contracts over time. Exercise plays a vital role of the postoperative treatment to prevent shrinkage. Gains in flaccid length are by far the most noticeable. Unfortunately gains in erect length are often less dramatic. A further drawback of the operation is once the suspensory ligaments have been cut the angle of the erection can be significantly reduced.

Penile Widening (Girth Enhancement)

There are several different techniques used to increase penis girth generally these are found to be more successful than penile lengthening and can provide up to thirty percent increase in girth. Listed below are the two most common surgeries available for Penile Widening. For more information on the other girth enhancement methods I have provided a link at the bottom of this page.

Fat Transfer Method

Fat Transfer is performed by taking fat from the lower abdomen or buttocks area injecting this fat underneath the skin of the penile shaft. The surgery takes approximately two hours under regional anesthesia, and stitches are removed two weeks after the operation. The amount of dermal fat to be injected should be just enough for the penile skin to sustain any excess fat. Sexual intercourse is possible after approximately one month. Healing is rapid although some pain may be detected for a couple of day's right after the surgery. There is up to three percent chance of having side effects such as necrosis, bleeding, infection etc and there is a significant possibility some or all of the relocated fat will be re absorbed by the body within the first several months.

Dermal Graft Augmentation

A relatively new method is Dermal Graft Augmentation and a very successful technique. With this procedure, strips of skin with the fat on the under-surface are removed from areas of the body. These strips are then inserted under the skin of the penis through two small incisions. The grafts are positioned to meet under the skin, surrounding the entire shaft, eliminating visible ridges. As technology has improved, Dr. Barron has concluded that the Dermal Graft Augmentation provides a vastly superior and virtually permanent result. The results of this procedure are considered to be superior to those achieved through Fat Transfer and are generally far more stable over time

Summary

Penis Enlargement Surgery is not risk free, while there has been many advances made over the last ten years, there has been many lawsuits filed over Penile Enlargement Surgery. Make sure you carefully select your surgeon, discuss the surgeon's success rate, see his before and after photographs and are fully informed of the potential risks involved. Also make sure he is a Board Certified Plastic Surgeon, a well respected surgeon with extensive experience in the field will offer a greater chance of achieving permanent gains and will have the skills to minimize risks or resolve postoperative complications should they occur.

Some of the problems with surgery:

Loss of erect upward angle of the penis.
Keloid scars (a thick scar).
Scarring causing a shorter penis.
Absorption of the allograft dermal matrix graft with loss of thickness.
Skin incision separation.
Bleeding.
Fibrosis of superficial vein.
Infection.
Ecchymosis (bruising).
Nerve injury resulting in decrease of penile sensation.
Edema (temporary swelling of the skin).
Seroma (collection of serum under skin).
Erectile dysfunction (difficulty with erection).
If some of these complications occur, further surgery may be required.

Real Customer Testimonials

The following are testimonials by clients submitted to us regarding their personal experiences or points of view about the various products of enlargement available on the internet.

Penis Enlargement Pill Testimonials

Product used: [EnhanceRx™ Capsules](#)

Rating: 9/10

Comments: "I tried EnhanceRx™ capsules for a couple months and couldn't believe it; they actually worked. My penis has grown over an inch so far in as little as a month."

Shawn, Florida

Product used: [VigRx Plus™](#)

Rating: 7/10

Comments: "My husband has been using VigRx Plus™ and wow! What a difference in his staying power. Our sex life has changed for the better."

Janessa, Wisconsin

Product used: [EnhanceRx™ Capsules](#)

Rating: 10/10

Comments: "Thanks for the growth! EnhanceRx™ has helped me gain length and girth in a relatively short period of time. Thanks guys."

Jackson M., Canada

Product used: [ZyGain™ Capsules](#)

Rating: 6/10

Comments: "I was excited when my products arrived in the mail. And after a couple of weeks I found some difference in my penis length. Even after two months, I am still getting some results. "

Samuel - Bellevue, WA

Product used: [EnhanceRx™ Capsules](#)

Rating: 10/10

Comments: "I've tried Extagen Capsules for a few months and had seen no results so I gave EnhanceRx™. So far so good, I have already seen a great improvement in my size. Thanks for everything."

Nagoya - Montreal

Product used: [Zygain Pills™](#)

Rating: 7/10

Comments: "It's been a year since my first purchase of Zygain Pills. And even though my substantial gains have peaked, my virility is off the charts! I am able to last MUCH longer in bed with my wife."

David - West Palm Beach, FL

Product used: [Vimax™](#)

Rating: 1/10

Comments: "My girlfriends told me I should try some penis pills just for the hell of it, even though my package is already a good size. I tried Vimax for 3 months and it didn't do a damn thing, I tried to return it and a company just gave me the run around."

Bob, Atlanta

Product used: [Extagen Capsules™](#)

Rating: 3/10

Comments: "I saw Extagen listed on one of those other so-called mega sites and was convinced that it was the only product on the market that worked. After doing a little research it turns out that the mega site itself actually owns Extagen as well. I feel like I have been duped and I am still waiting for the results they promised"

Jack - Hollywood, CA

Product used: [Vimax™](#)

Rating: 2/10

Comments: "After several weeks of researching which product seems to be the best, I came to the decision of trying, Vimax. After an extended wait, my package finally arrived. I can't say that this product is all it lives up to be. My results were minimal and I am still in the process of getting my money back. "

Alex, Liverpool

Product used: [Magna-Rx™](#)

Rating: 1/10

Comments: "Magna-RX sure was cheap, and now I know why. No results after 4 months of use. I think I will try another pill product now, any suggestions? My friend says that the other patch brands work great... Is this true?"

Frank, Orlando FL

Penis Enlargement Patch Testimonials

Product used: [MaxiDerm Patch™](#)

Rating: 7/10

Comments: "I will be honest; I wanted to return my product soon after my purchase because I had seen no real results within the first week. Until I noticed that my diet had may become a factor. I cut down on my smoking and drinking and sure enough I started to see results right away. I didn't realize that smoking really does "stunt" your growth. All growth!"

Gerard - California

Product used: [ZyGain™ Patch](#)

Rating: 10/10

Comments: "I have always been bothered by how my own penis never seemed to measure up to those I was seeing in the adult movie industry. One day I saw an advertisement for the ZyGain Patch™ and decided to give it a try. I could hardly believe the results and in such a short time! Thank you ZyGain™!"

Jack - Mississippi

Product used: [EnhanceRx™ Patch](#)

Rating: 9/10

Comments: "With so many options to choose from, I decided to give EnhanceRx Patches™ a try. I hate taking pills so the patch seemed like an excellent alternative. After three months of use, I can say that I am very pleased with the results."

William - Texas

Product used: [ProEnhance Patch™](#)

Rating: 6/10

Comments: "I was happy with the result without going under surgery."

'Bill - BC, CA

Penis Enlargement Extender Testimonials

Product used: [EnhanceRx Extender™](#)

Rating: 9/10

Comments: I have been wearing the EnhanceRx Extender for 3 hours a day and have already seen results, great product. I will recommend the product to my friends.

Robert - British Columbia

Product used: [ZyGain Extender™](#)

Rating: 10/10

Comments: I can't believe that I didn't order your system sooner. I have tried liquids, creams and even silly old weight systems and they didn't do a damn thing after a few months. I use ZyGain Complete daily and already I can see results after only 3 weeks.

Gordon - Florida

Product used: [SizePro System™](#)

Rating: 8/10

Comments: "When I first received my extender I was a little intimidated by the complexity of the device, but after reading the instructions and watching the DVD, I quickly changed my mind and am pleased with the ease of use. Just make sure you're not wearing it on a date! "

Andy - New York

Product used: [EnhanceRx System™](#)

Rating: 8/10

Comments: "I received the EnhanceRx™ System about 2 months ago. I have only been using it for the past month with excellent gains thus far but very satisfied"

Ainsley - Atlanta

Product used: [ZyGain Complete™](#)

Rating: 9/10

Comments: I will have to tell you that my penis was so small due to the steroids that I took in the past that I decided that I had to fix the problem. I ordered the ZyGain Complete system and I can say that this product really works. It took a while to get used to wearing such a device, but now I can't even tell that it is on as it is more comfortable than I originally would have thought.

Kevin – Canada

Scams and Rip-Offs – Buyer Beware!

Don't Believe the Hype! Just because you see a product on TV, or listed on a "review" site - doesn't mean it works!

Every day we get emails asking the same questions about some of the brand names that can be found listed on those new "self-proclaimed review sites" that we see pop up on the net every day.

While the majority of the sites are 100% biased and the rest are just simply quite funny, there are a few that are just lies and we hope that no one actually purchases anything that they recommend.

Due to legal reasons we can't name the actual sites but here is the name of the brands that are listed that we think you should clearly stay clear of due to how they are marketed or promoted on these sites in question:

Extenze - Offers a free trial for 7 days yet bills you \$43.95 + \$6.95 S/H because the "7 day trial" automatically enrolls you into a monthly subscription whether you like it or not. JUST READ THE FINE PRINT! So stay away from Extenze. [Click Here](#) to Learn More.

Vimax - Listed as the best thing since slice bread on what appears to be two "different review sites" but in fact are owned by the same person. We also uncovered the fact that the sites are actually managed by the owners of Vimax themselves. More importantly Vimax claims that their product gives a permanent result which is a 100% LIE. There is no pill on the market that will give you permanent results on its own without the use of an exercise program and Vimax does not offer an exercise system. You can read our review about Vimax by [clicking here](#).

Endowmax, Xytomax, Xanogen - These products can be found listed on a review site that used to list products that actually work in its rankings, but for some reason they have now decided to replace them with new ones that they ACTUALLY OWN!

That's right, all 3 products are owned by the same company and they even have the same phone order number which is quite funny to say the least. The information is the same on each site just reworded. You can see for yourself... but we don't recommend that you waste your time any further. At least the site backs us up and lists Vimax as a "DO NOT BUY" product.

Marathon 21 / Magna-Rx - Owned by the same company. We can only assume that Magna-Rx's cheap ingredients have been passed on to the new product name called Marathon 21. Magna-Rx has had enough bad publicity in the past due to the lies and outrageous claims that it made in its advertising that I guess they have decided to rename it Marathon 21. At \$10 a bottle it seems to be the same cheap product with the same cheap ingredients. So stay away.

Extagen - Can be found on the review site "penis-enlargement-planet.com". The site claims that Extagen is the only product that works... period. Of course after a little digging we soon discovered that the owners of Extagen own both sites. It is too bad that they hack down all of the other products on the market just to sell their own brand as the best. The Extagen product does work... but not as well as the other ones that we found on the internet. You can read more about Extagen by [clicking here](#).

Frequently Asked Questions:

1. Why don't we list some of the products that can be found on those "self proclaimed" review sites?

We rank the products on our site based on customer and client feedback. We get hundreds of emails daily via our support desk from clients who have used pretty much everything on the market. If they have success then we post it on our "top rated products" pages, but if they have nothing but complaints then we post it on this page as a scam and rip-off.

We have also uncovered the fact that some of the products listed on the other sites are actually owned by the same company as we stated above.

2. What is the deal with some penis pill products claiming permanent results?

Extenders are the only method that can guarantee permanent results when used on its own. Any pill or patch site that claims permanent results is lying to you unless it is offered with an exercise program. You need to combine both of the methods, exercises combined with pills or patches, in order to achieve permanent results.

As we said above, one such company that uses this false marketing and who does not offer an exercise program with their product is Vimax. We consider this to be misleading and a serious problem in the way they conduct business. Learn the real story about Vimax by [clicking here](#).

3. Extenze™ is all over the TV so why don't you list the product on your site?

Extenze™ is not listed because of the way it markets its product with the use of "free trials". While there is nothing wrong with "free trials" or "free samples" from other companies, Extenze™ is much different! What really happens is that once you sign up for the "free sample or free trial" you are automatically enrolled into a monthly subscription of \$43.95 whether the product works for you or not and even get charged the \$43.95 before your initial free sample arrives in the mail! As a result we consider Extenze™ misleading and should be avoided. Learn the real story about Extenze™ by [clicking here](#).

Know These Tips Before You Buy

The internet is FULL of scams which will take your money, but then provide with nothing in return. Unfortunately, because of the increasing success of the penis enlargement industry there have been a flood of scammers into the penis enlargement market. For legal reasons we cannot list the names of the companies that we believe offer "less than" perfect systems. Hopefully you can determine on your own - by utilizing ratings and giving notice to the companies who refused to participate in our project, who offer quality programs.

99% of penis enlargement products and sites are rip offs of other sites or products. This means that you end up paying lots of \$\$ only to get an inferior product with inferior support which will leave you feeling cheated and with no gains. The basic tips below can help you make the correct decision when purchasing a penis enlargement product.

Tip #1 - Have you seen products ranked high on other sites that we DO NOT list?

Well, straight up, the answer is simple ...those other products do not work as advertised...period.

Stay away from Penis Exercise Membership Websites!!

Exercises on their own WILL NOT enlarge your penis!

Supplements promote blood flow internally, something exercises alone can NOT do. Ingredients such as L-Arginine vastly improve the effectiveness of male enhancement supplements.

L-Arginine - You can't get a bigger erection without it. The amino acid L-Arginine is a precursor of Nitric Oxide, meaning your body needs L-Arginine to make Nitric Oxide. A gas molecule, Nitric Oxide is the compound that is necessary for blood circulation and improved blood flow which makes nitric oxide essential for men to have erections! Learn More about Ingredients by [clicking here](#).

Taking supplements with L-Arginine will vastly improve blood flow to the genital region by aiding in the dilation of the blood vessels there. Once the blood vessels are dilated, the blood flow can surge to the penis and allow for larger and harder erections as well as an increased frequency of those bigger erections. Supplements without L-Arginine just don't make sense as they are depriving you of a vital amino acid that is necessary for male enhancement.

Stay away from any product or site that guarantees 3-5 inches in just weeks!

This is 100% impossible. In order to achieve 3-5" in just weeks we recommend nothing short of a complete penis transplant! The pills and patches do work but you would only notice minimal gains in just 3-4 weeks! Most of our readers tell us that it takes 3-4 months to see the desired results from the use of either pills or patches. However we found that minimal results from using an Extender device can be in fact noticed within just 2-4 weeks.

Stay away from any type of Liquid penis enlargement products that use false advertising! This method does not work as they advertise and the product WILL NOT give you 4 inches of new size in just 4 weeks. We consider this type of marketing 100% fraudulent.

Tip #2 - Is the site professionally designed?

Does the site look like it was actually designed by a company? If the site has an amateur design then more than likely it has been put together by some kid in his bedroom who is looking to make thousands from ripping off men with a below average product! Is the site duplicated content stolen from other more respectable sites such as a few of the sites out there that look exactly like this one except for the menu colors are changed around a bit... Buyer Beware.

Tip #3 - Go with a well respected company.

In our directory we have given each site a rating on their "reputation". We link this to how long they have been selling their program/product on the internet and the feedback that we received about the company. Many sites CLAIM that they have been online for years but when you check the WHO IS records you find they have been online for no longer than a few months.

Tip #4 - Avoid sites that use illegal "spamming methods".

If you receive an unsolicited email then the company is acting illegally and is more than likely just out to make a quick buck. We receive hundreds of emails a day from these companies that actually SPAM US. Our advice is to steer clear. Do NOT purchase from sites that SPAM YOU.

Tip #5 - Avoid sites with amateur URLs.

Avoid sites with names that are longer than your arm - URLs such as penis-enlargement-pills-increase-your-penis-size.com. These are frankly just ridiculous and are created by people that want to get higher listings in a search engines. Choose your program like you were choosing a lawyer - you wouldn't go with a firm whose name is "We'll Get You Out Of Trouble No Matter What You've Gotten Yourself Into". Same goes for websites.

Tip #6 - Avoid sites with copied testimonials.

Sites which copy other sites testimonials can NOT be trusted. Do not TOUCH sites like this. If their program/product really worked then there would be no need to do this. Avoid at all costs.

Tip #7 - Crap support needs to be avoided.

When using a penis enlargement product support is ESSENTIAL. If you have just ordered \$200 of penis enlargement pills but no one will answer your support questions on delivery time then it will leave you frustrated and feeling ripped off. Proper companies that CARE about your penis gains will provide e-mail support. Test out their support by emailing them, 48 hour response time should be easily achievable by most of the sites. The sites with the best support are the sites which will give you the results that you really want.

Tip #8 - Avoid products with low grade ingredients.

Many men are tempted to go for a cheaper penis enlargement pill which would be FINE if it worked. The quality of the ingredients is so poor in some of the lower grade pills that men have reported cases of stomach problems! Companies which offer these low grade pills often make their money by offering cheap ingredients and charging you close to the same amount as companies that offer high quality ingredients. Poor ingredients = poor results. If the price is cheap then it is cheap for a reason. Learn More about Ingredients by [clicking here](#).

USE JUDGMENT - Choose sites which look reputable and you have been referred to. There are hundreds of review sites out there that rate the "highest commission" paying programs first. We are also a review site but offer you concrete results from each company we reviewed. This site can help you make an informed buying decision.

The Best Penis Enlargement Programs & Products

How Did We Choose The Best Products?

We listed the top products so that you can make an informed decision and choose from the programs that work that are also backed by a 100% guarantee from the supplier.

Unlike the other "review" sites on the net, the staff of Penis-Enlargement-123.com have ranked the products relative to how they worked based on performance and price, but of course most of all - customer satisfaction.

We are always searching the web looking for the latest pills, patches, extenders and now gum as well as brand name knockoffs and reviewing and ranking them accordingly. We pride ourselves on keeping up to date with the latest in penile development.

If we have missed a product on our list then please feel free to let us know by visiting our help desk. If you feel that a specific product should be ranked higher than where we have placed it then tell us your story and we will kindly review the product again.

We recommend purchasing a 4-5 month or more minimum supply of any one of the penis enlargement products that you choose. The reason for this is because most penis enlargement programs take anywhere from 1 month to 4 months minimum to see the desired results.

Pills, Patches, or Gum?

Pills, patches, or gum? 100% personal preference but it is a good question. Each one works equally as well as the other. It seems that the consumer trend these days is leaning toward the patch or the new gum programs. The reason for this is because they are easy to use and easy to maintain. You either just apply one patch every day or one every three days depending on which patch program you choose or you just chew one to three pieces of gum everyday and that is it! No bulky pills to digest and no bottles that linger around the medicine cabinet. To read more about the advantages of patches [click here](#) or to read more about the advantages of gum [click here](#).

Penis Extenders?

If money is no object and you want the best system money can buy then by all means try out the extender systems. They are sold as complete systems or simply just sold as individual extender devices. The choice is yours.
